

# Asad Mahmood (Web Developer)

## Professional Goals

I am a motivated fresh graduate from FAST-National University of Computer & Emerging Sciences and having the good concepts of OOP, Data structures & Java. I worked as a web frontend developer in couple of internships and now I am looking for a full-time job as a Web developer so that I could learn & serve and make a difference in this field.

## Education

**FAST-National University of Computer & Emerging Science (NUCES)**  
**B.S(Computer Science)**  
August 2017 - January 2022

## Work Experience

**Dotman Tech Company**  
ReactJS Developer Internee  
Sept 01, 2021 - October 15, 2021

**Zaheen Systems Islamabad**  
Frontend Developer Internee  
July 01, 2021 - August 31, 2021

## Final Year Project

**UAVs Obstacle Avoidance System Using AI**  
Python | C++ | JavaScript | Final Year Project | March 2021 - December 2021

- An efficient obstacle avoidance system for UAVs that could avoid the obstacles & plan its path accordingly. My role in this project is to create a web simulator for the drone where we could show obstacle as an image and drone's movements on it.

## Projects

**Drawback on Local Taxes & Levies (DLTL) Scheme Management**  
ReactJS Frontend Application

- An application for DLTL scheme system to manage the offers to allow both exporters and importers recover certain duties, fees, or taxes paid on imported merchandise. My role in this project is to create the frontend of it.

**Blockchain Based Doctor Appointment System**  
ReactJS | Solidity

- A web application where user can book their appointment using smart contracts. My role in this project is to create the frontend application for this system using ReactJS.

**Personal Portfolio**  
HTML | CSS | JavaScript

- A web personal portfolio that I have designed for myself to showcase my work and projects. It is designed using HTML and CSS. JavaScript is used to handle event like click button and scrolling.

**ANMOL Corporation Portfolio**  
HTML | CSS | JavaScript

- A single page web portfolio for a small corporation ANMOL Corporation that shows their clients, services, and contact information.

**SecureChat Application using AES**  
Android | Java

- This is a cryptography project in which I have developed an android based secure chat application that encode/decode messages using different mode of AES.

## Professional Skills

- C, C++, Java (Well Known)
- HTML, CSS (Well Known)
- JavaScript (Intermediate)
- ReactJS (Intermediate)
- Microsoft Tools (Intermediate)
- Oracle, SQL (Average)
- Python (Beginner)

## Soft Skills

- Solve a challenging problem
- Enthusiast & Fast Learner
- Communication Skills
- Poster/Flex Designing
- Video Editing
- Public Speaking

## Interests

- Software Engineer (Java)
- Android Developer (Java)
- Frontend Developer (ReactJS)
- Web Developer (Full stack)
- JavaScript Developer
